

## For Hedge Funds/Mutual Funds

TurboTrade provides electronic trading tools and services to institutional traders, hedge funds and mutual fund managers. Our trading platforms allows buy-side traders to react quickly to market information and movement, as well as manage their portfolio strategy as they monitor risk.

We specialize in providing offshore and international funds the technology, individualized service and expertise they require to enable them to focus on their trading.

TurboTrade's comprehensive, direct-access trading solution for equities, options, futures and forex that is unparalleled in the industry.

### No Need to Change Custodians or Prime Brokers

If you're already satisfied with your global custodian or prime broker, but want access to the fastest trading network and best executions available, you can simply open a DVP account with TurboTrade. This 'delivery-versus-payment' account allows you to execute your orders through TurboTrade to obtain the best-possible fills while maintaining custody of your assets with your current custodian. Best of all, it's easy to open a DVP account, too--most DVP accounts can be opened by filling out one simple form!

At TurboTrade, we understand the specialized needs of offshore clientele because that's our business--and it's all we do.

TurboTrade's advantages includes:

- Equities, Options, Futures and Forex trading
- Multiple Trading Platforms Covering a Range of Experience Levels
- Advanced Risk Management and Customer Tracking Tools
- Basket, Allocations and Algorithmic Trading Services
- API Solutions for Front-end Platforms and Black Boxes
- Superior Clearing, Account Security and Protection
- Conflict-free, Agency-only Services

### Equities, Options and Bonds

With TurboTrade, you have access to the markets and products you want to trade. These include:

- all U.S. equities and option markets
- all ECNs, NYSE, NASDAQ, AMEX, OTCBB, regional exchanges
