

J-Trader

J-trader is the platform of choice for retail customer and active day traders. J-Trader is an Internet-based application with user-friendly Windows-like functionality providing access to electronic markets around the globe.

Simple to deploy and use, J-Trader combines the power of the internet with a feature-rich interface that makes online trading easier and faster - for the novice as well as the seasoned trader. Streaming price data, customizable windows and pre-trade risk management are just a few of the features that our customers have come to appreciate along with these other popular features:

The key advantages include:

- Fast, secure electronic connections to the CME, CBOT, EUREX, LIFFE, Euronext and IDEM exchanges
- Full pre-trade risk management, including 'fat finger' checks
- Easy to use, intuitive displays, including 'one-click' trading

J-Trader features include:

- Hot Quotes - an order entry and price discovery screen for trading multiple contracts on multiple exchanges.
- Reflector screen - a fast order submission screen with advanced trading features, designed for entering, amending and canceling orders at speed.
- Status - an order book to display working and filled orders. Buys and sells are color coded for ease of use.
- Matrix - for spread trading, J-Trader provides a user-friendly matrix screen that enables you to trade both outright and calendar spreads using a single or double click.
- Multi-Exchange Ledger - MEL allows you to create, price and trade any user-defined strategy across exchanges and products.
- Position screen - a trader's open positions and profit and loss
- Accounts - a list of available trader accounts from which the trader can execute orders
- Settings - configuration tool for traders to customize their display, program Hot Keys and define functions such as single click trading

J-Trader provides access to all electronic futures contracts trading on the following exchanges:

- Chicago Mercantile Exchange (CME)
- Chicago Board of Trade (CBOT)
- Eurex Exchange (EUREX)
- Euronext Exchange (Euronext)
- Liffe Exchange (LIFFE)
- Italian Derivatives Market (IDEM)
